

Bulk Material Handling Conveyors

Hinged Steel Belt Conveyors

Apical Conveyor Systems offers heavy duty hinged steel belt conveyors for applications requiring a steel belt due to the weight and bulkiness of the materials being conveyed. Manufactured in most industry standard pitches, hinged steel belt conveyors are available from stock 2 1/2 in. pitch conveyors to heavy duty 9 in. pitch custom designed structural steel conveyors. Steel belt conveyors are quality constructed to provide years of trouble-free service in the toughest bulk material handling environments.

Heavy Duty Conveyors

It is Apical Conveyor Systems' desire to meet the needs of our customers and their material handling challenges. We are always willing to discuss special needs, and custom designs, that are appropriate for the project at hand. **Heavy Duty Trough Conveyor, Roller Bed Conveyors**, that are available with a variety of options such as winged tail pulleys, cleats, etc.
